

FERANMI JOHN OYEDIRAN

FRONTEND WEB DEVELOPER

• REMOTE & RELOCATION-READY • MOBILE NUMBER • EMAIL • LINKEDIN • PORTFOLIO

TECHNICAL SKILL

- **Languages:** HTML5, CSS3, JavaScript (ES6+), TypeScript
- **Frameworks & Libraries:** React.js, Next.js, Redux, Tailwind CSS, Bootstrap
- **Tools & Platforms:** Git, GitHub, VS Code, Webpack, Vite, Figma
- **Testing & Optimization:** Jest, Lighthouse, Chrome DevTools, Performance Profiling, Code Refactoring
- **Core Competencies:** RESTful APIs, Responsive & Mobile-First Design, Agile Workflow, UI/UX Implementation, Accessibility (A11y), Frontend Architecture, Performance Tuning
- **Team & Leadership Skills:** Cross-Functional Collaboration, Technical Leadership, Mentorship

EDUCATION

2017-2022
UNIVERSITY OF IBADAN
Theatre Arts
Major: Technical Arts & Design Focus on Stage & Visual Design, User Experience Principles

2021-2022
FREE CODE CAMP
Frontend & UI UX Developer
Microsoft Professional Program in FrontEnd Web Development

CERTIFICATIONS

- Meta Frontend Developer Professional Certificate – Meta (via Coursera)
- Google UX Design Professional Certificate – Google (via Coursera)
- AWS Certified Cloud Practitioner (CLF-C02) – Amazon Web Services (AWS)
- Responsive Web Design Certification – freeCodeCamp
- JavaScript Algorithms and Data Structures – freeCodeCamp

PROFILE SUMMARY

Results-driven Frontend Engineer with 6+ years of experience building scalable, high-performance web applications for 40+ clients across tech, finance, and creative industries. Proficient in React.js, Next.js, TypeScript, and JavaScript (ES6+), with expertise in translating Figma designs into pixel-perfect, responsive interfaces. Skilled in RESTful API integration, Tailwind CSS, Redux, and UI optimization, with a strong focus on performance, accessibility, and seamless user experience.

WORK EXPERIENCE

Lead Frontend Architect Jan 2023 – Jun 2025

TANGL Capital Partners (Remote)

- Architected and deployed scalable frontend infrastructures for TANGL Capital Partners using React.js, Next.js, and TypeScript, transforming high-volume financial data into dynamic, data-driven investor dashboards.
- Implemented progressive rendering pipelines, dynamic import strategies, and server-side hydration optimization, slashing page latency from 4.2s to 1.6s and achieving 90+ Lighthouse scores in accessibility and performance.

React & UI Systems Engineer Jan 2022 – Dec 2022

Loyalty Juggernaut (Remote)

- Engineered enterprise-grade loyalty ecosystems using React.js, Next.js, and TypeScript, integrating GraphQL APIs, state persistence layers, and SSR caching mechanisms to deliver millisecond-response customer portals.
- Collaborated with DevOps on CI/CD pipelines and micro-frontend deployments across AWS, improving build stability and data synchronization throughout by 40%.

Frontend developer May 2021

OUTSYD Fashion (Freelance Project)

- Developed a high-end fashion e-commerce platform with a strong brand presence, responsive mobile-first design, and intuitive navigation.
- Implemented interactive product displays and optimized performance using lazy loading and code splitting for fast, smooth user experience across all devices.

Junior Frontend Developer 2019 – 2020

CodeLab Digital Agency (Lagos, Nigeria)

- Implemented responsive marketing micro-sites using HTML5, CSS3, and Bootstrap 4, ensuring W3C compliance and cross-browser interoperability.
- Assisted in migrating jQuery-based components to React functional modules, strengthening the agency’s transition to modern component-driven development workflows.

Freelance React & UI Specialist (Remote) 2018 – Present

- Delivered 20+ scalable web apps for fintech, media, and education using Next.js, TypeScript, and API-based architectures to boost performance and SEO.
- Built custom UI libraries and design systems (Redux, Zustand), speeding up development by 40% and ensuring consistent interfaces.
